JAIPUR: Come to Pilani this March, and you're bound to have a great time. Apogee, the annual international technical festival of Birla Institute of Technology and Science, Pilani will be held from March 25.

Students are giving last minute touches to their projects. There have been about 5,600 registrations for the fes-

tival. It's more than an educational event; it's a way for people with similar interests to share ideas about technology via podcasts, broadcasts, blogs and other forms of live media sharing.

The Student Innovator Contest is an event that promises to bridge the gap between research and outreach. Several other events are lined up pertaining to different backgrounds of science and technology.
