Live Interactive Lecture Sessions

For the courses offered during II Semester 2009-2010 and I Semester 2010-2011 for the B.S. Engineering Technology, B.S. Information Systems, M.S. Software Systems, M.S. Manufacturing Management degree programmes conducted by the Institute for employed professionals, live interactive lecture sessions were delivered using the Internet Based Desktop Video Conferencing Systems accessible round the globe irrespective of time zone where the concerned students were located. The systems also permitted on demand services minus the video component to the students who may have either missed the live sessions or who may have wanted to go through the session again. This was in addition to the asynchronous learning services provided to the students by the virtual university.
